

zipTMS™ Transaction Management System

Build the Connection You Need, When it's Needed

It is hard to imagine what doing business in the real estate industry was like before the internet. Today's consumers want to get the information they need whenever and however they choose. Most are technologically-savvy and by providing the information to them in a timely manner in the medium they request, you are taking great steps in developing that connection with them.

Connects Agents to Buyers and Sellers

Created by industry leaders with 20+ years of experience, zipTMS™ is productivity made simple, offering a comprehensive set of tools that promises to deliver a fully digital paperless transaction for real estate professionals.

With the zipTMS™ Transaction Management System, agents are provided with an opportunity to track and manage all information and activities from listing through closing, including: listing and sale information, transaction contacts, documents, client satisfaction, customized checklists, and all communications throughout their transaction experience. This offers your client 24/7 interaction and communication.

As an online transaction management solution, zipTMS™ streamlines workflow and collaboration between you, other professionals, and clients throughout your real estate transaction. zipTMS™ allows a broker, agent or transaction coordinator the ability to have a higher degree of consistency in transaction management and a greater degree of transparency.

With zipTMS™ you're able to:

- reduce risk of errors,
- shorten the transaction time,
- gain satisfied clients,
- eliminate reliance on costly paperwork

zipTMS™ Features

- Easily update track, review, approve and save the latest version of every document. All transaction documents – printed, faxed, or electronic – in one place.
